

STEPS TO UPDATE DOCTOR PRACTICE INFORMATION

1. Log-in with the Admin User ID, select “[Edit Info]” on the Home page to the right of the office information. This will take you to the Practice Information page in TAB.
2. Select the section you wish to view by clicking on labels (Location/Services/Payment/Fees/Insurance/Languages/Notes/Doctors) under Practice Information header and update information as needed. Don’t forget to upload photo for all doctors.
3. Next, read and complete the “Use of Information” section. This will allow you to release the information for online publication.
4. Remember to click “save” to keep your changes.

The screenshot shows the TAB Appointment Book interface. At the top, there are navigation links: home, my account, admin, email, logoff, and a search bar. A statistics box shows: Comp YTD Exams Checked-in: 108.55, Partial YTD Patient Retention: 19.74%, Complete YTD Patient Retention: 21.10%. The date is Sunday, July 14, 2019, for Akahoshi, Michael. The 'Appointments' section is highlighted with a red arrow. Below it are buttons for weekly view, refresh, search, reports, families, new eye exams, Insert Doctor..., and Replace Doctor. The office is PV6321 Pearle Vision Coventry Mall, and the date is Sat 07/13/2019. The appointment list is as follows:

History

As a web-based program The Appointment Book presents a unique opportunity to allow eye exam scheduling from multiple avenues in real-time. EyeMed representatives and customer support center agents use a limited view interface of The Appointment Book (similar to patients scheduling online) to schedule patients at your office. Patients often request the type of information that is included in these Practice Information tabs. Providing the answers will help patients make appropriate decisions and build trust in your practice. If you would also like consumers to be able to view this information directly via the online resource/s listed on each tab, please check "Yes, I agree to share the information".

Office Demographics
