WELCOME TO EYE SQUAD!

Greetings, new recruit. I'm 20/20, your trusty robot companion! Professor Blur is messing with a local soccer team. It's up to you and Eye Squad to help these kids unlock their potential and win!

LOONEY LOCKERS

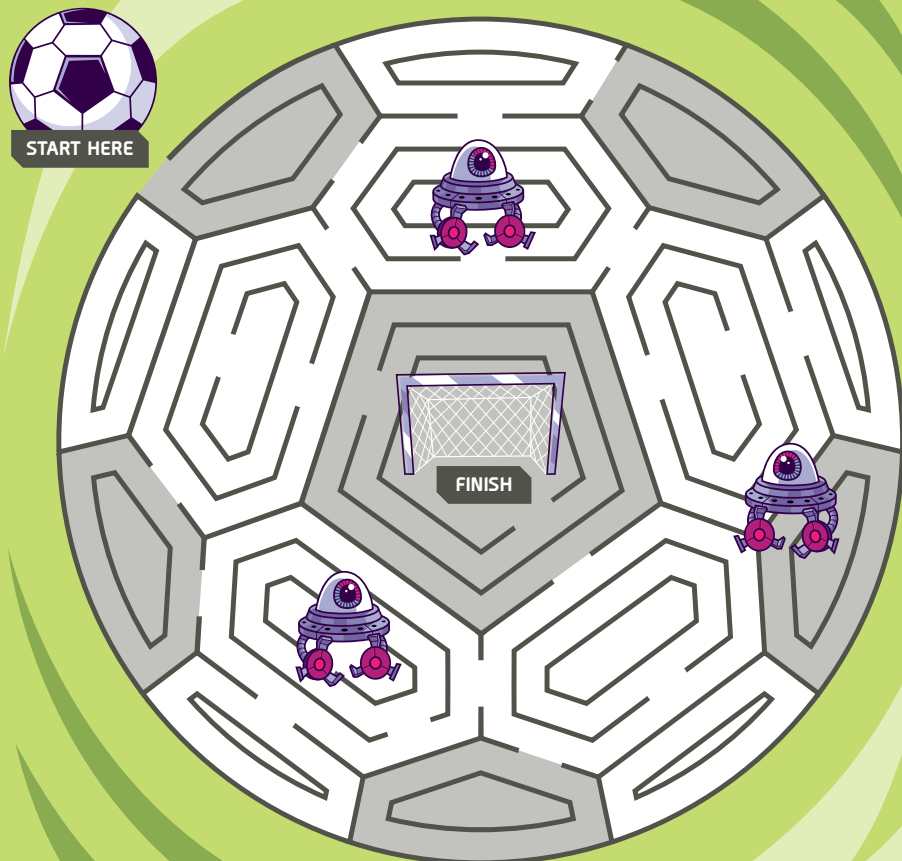

Professor Blur is trying to throw us off our game by placing silly objects in the team's locker room. We need your help to find them all. Can you spot the objects that don't belong?

ANSWER: Left to Right - Pumpkin Trophy, Fish, Bowling Ball, Ketchup, Stocking, Soccer Ball

LOOKING BRIGHT

José is a star player for the team. His teammate has kicked the ball high in the air, but Professor Blur's bots are redirecting the sun's glare to slow him down! Help José get to the ball and score.

SUN-BLOCKED

Did you know your eyes can get sunburned just like your skin? It's true! Not only can RxSunglasses help protect your eyes from the ball, but they also block 100% of UV rays. Now that's what we call a great save!

STOP EVERY SHOT

Adam, the team's goalkeeper, is in trouble! Blur's bots are shooting five balls at once! The bigger the ball, the closer it is to the goal. Number the balls in the order Adam should block them, starting with the closest.

ANSWER: Left to Right - 2, 5, 3, 4, 1

YOUR EYES: THE BODY'S MVP

Your eyes are able to process 36,000 pieces of information in a single hour!

AIM FOR THE RIGHT GOAL

Natalie is waiting to take the game-winning kick, but Professor Blur won't make it easy. His bots are projecting blur beams, causing Natalie to see three goals! Help her find the right one to aim at by following the path to the correct goal.
